**Intended use**
The device is intended to the treatment of meteorism, aerophagy and flatulent colics. The film-forming agent contained contributes to reduce the interaction of intestinal pathogens with the mucus and their subsequent proliferation, thus preventing the rise of altered biologic responses which may provoke the increase of the gas content in the intestine. The presence of Tyndallized Lactobacillus reuteri and Bifidobacterium breve contributes to the prevention of pathogenic bacterial invasion.

**Presentations**
Bottle of 30 ml filled with 20 ml of oral suspension for pediatric use

**Composition**
Xyloglucan, Lactobacillus reuteri (Tyndallized), Bifidobacterium breve (Tyndallized), Corn Oil, Fatty Acid Mono and diglycerides and Strawberry Flavour.

**Instructions for use**
Shake well before use. Administer the product directly with a spoon. It can be mixed also with a small quantity of fruit juice, water or yoghurt.

**Dosage**
Children under 4 years: 10 drops before breakfast and dinner for 10 days.
Children age 4 to 14 years: 10 drops before breakfast, lunch and dinner for 10 days.
This treatment can be maintained if a maintenance therapy is necessary.
The duration of the treatment can be increased up to 20 days if symptoms persist.

**Warnings**
- Consultation with a healthcare professional before using the product is not necessary. However such consultation is advisable in case of severe or persistent symptoms or when there are doubts on the diagnosis.
- This medical device is not a pharmacological treatment. If such treatment is recommended by a healthcare professional, the product can be administered concomitantly with it.
- Do not use the product after the expiry date printed on the package.
- Do not use the product if the bottle is opened or damaged.
- This medical device does not require any special storage conditions. Do not freeze.
- Keep product out of reach of children.

**Contraindications**
Aprotecol should not be used in patients with known hypersensitivity to Xyloglucan or any other ingredient of the product listed in composition.
