60 capsules.

Specialized nutrition

Om3gafort goes one step further to give support to the Health professionals work with a food supplements portfolio of om3ga-3 high concentration, known as "specialized nutrition", desing for support from a specific and directed nutrition, the wellbeing of people under determined Health circumstances.

Om3gafort™ EPA 900 mg+ gives in a single capsule 1200 mg of omega-3, from which 915 mg are EPA (eicosapentaenoic acid). Specially desing for people for who this pecific ingredient, would improve their lifestyle, according ot the healthcare professionals opinion.

Om3gafort™ uses poliinsaturated long chain fatty acids om3ga-3 EPA/DHA of HIGH CONCENTRATION obtained by the Supercritical concentration system.

The Supercritical concentration technology, by the CO₂ use, allows to extract and purify fish oil, reducing the undetectable limits, the undesearible components.

Benefits of supercritical concentrations:

- Facilitates higher quantity of EPA and DHA regarding the product total quantity.
- Ensures a highly pureness.
- Higher intestinal absortion and bioavailability.
- More convenient intake as only requires 1 capsule per day.

Avoids fish reflux thanks to its OmegaGel technology.

Manufactured in Portugal by Labialfarma.
